# Loader Buckets

We are proud of our unrivalled history, experience and reputation for producing loading shovel buckets for some of the most diverse and extreme applications across the world.

Using only the best materials and wear parts, such as Swedish Steel Hardox 450 and 500 for impact resistance and chromium carbide for abrasion, these buckets far outperform their rivals. Reducing wear rates, bucket weight, and fuel burn, in combination with improving cycle times, fill rates and maximising uptime, is our aim in providing the correct solution.

Leaders in the design and manufacture of the world's largest buckets and attachments. [hsmbuckets.com](https://hsmbuckets.com)

## HSM Manufactures high quality buckets and attachments designed to suit customer specific requirements and applications.

All buckets are manufactured in our own British fabrication workshops and are designed to work in the world's toughest environments. A custom suite of bucket teeth and wear packages can be added to the buckets to suit the needs of the intended use.

HSM design and build buckets to meet our customers' existing specifications using the latest in 3D modelling and design technology. This ensures HSM can provide bespoke bucket solutions from small Backhoes to large Face Shovels and Loaders that are individual to our customers and their machines.

Individually designed with unique technical characteristics creating an extra strong and durable solution.

- Full 'Hardox in my body' SSAB Hardox 450 bucket bodies that are adaptable to cope in the most extreme conditions.
- Strenx 700 high strength steel providing structural rigidity in key areas.
- Extensive range of wear packages, including Hardox 450, 500 and Chromium Carbide.
- Advanced Wear component and G.E.T options.

Mining Machine Weight Range (Ton)	Caterpillar	Komatsu	Volvo	Hitachi	Liebherr	Case
10-15	930	WA320	L90	ZW180		621
15-21	950, 962	WA380, WA420	L110, L120	ZW250	L550	721, 821
21-30	966, 972	WA470, WA475, WA480	L150, L180	ZW310, ZW330	L556, L566, L576	921, 1021, 1121
30-36	980	WA500	L220	ZW370	L586	1221
36-50	986, 988		L260			
50-81	990	WA600, WA700	L330, L350			
81-120	992	WA800, WA900				
120-200	993					

This is a sample of the range we provide. Please get in touch with our team to discuss your specific requirements.
